## OVERVIEW

Embark on our Annapurna Three Peaks Expedition, an exhilarating challenge set in the breathtaking Annapurna region of Nepal. This adventure, a triumphant trio of peaks reaching over 20,000 feet (6000+ meters), offers a spectacular introduction to Himalayan climbing. Immerse yourself in the rich mountain and Manang culture, culminating in the thrilling summit conquests of **Chulu West (6419 meters)**, **Chulu Far East (6049 meters)**, and **Pisang Peak (6091 meters)**. Traverse the Annapurna circuit's hidden treasures, including Tilicho Lake at 4900 meters and the Thorong La high pass at 5416 meters

This expedition promises an extraordinary blend of trekking and climbing through the enchanting Annapurna massif. Chulu West, the pinnacle of technicality among the three peaks, presents climbers with challenges like navigating crevasse openings and ascending/descending a vertical 90-degree wall near the summit. Meanwhile, Pisang Peak adds a touch of moderate yet technical climbing to the adventure.

The Annapurna Three Peaks Expedition is tailored for those with a spirit for high adventure, featuring moderately technical climbs. Chulu West, with a grading of 2B, is within reach for individuals in good shape and harboring a thirst for thrilling experiences. Our seasoned team is dedicated to nurturing and enhancing your alpine climbing skills as we embark on this incredible journey conquering three distinct and awe-inspiring peaks.

Important note - Participatin members to this expedition requires members to be at an exceptional fitness level. All though all the peaks are considered beginner/intermediate level 6000er climbs. This 29-days expedition is not to be taken lightly, especially if you want to summit successfully & safely.

We aim to provide the best adventure tours around the globe. What makes us different is also our commitment to responsible, ethical and sustainable tourism. Our central aim is to help you attain your personal adventure/expeditions goals while experiencing the best of our planet, its unique cultures and environments. We aim to offer the highest quality adventure tours and expeditions at a great value while focusing on our primary goals: safety, success, and recreation. We hire only the best leaders and we don't cut corners on costs. Our adventures and expeditions strive to set the highest standards. We prioritize the wellbeing and safety of our teams, being responsible to the environments we operate in, respecting culture, contributing to local economies by employing regional partners and paying them higher than the industry standard or influencing higher pay when we feel the market has underpaid the working staffs and working in a self-sufficient and self-reliant way. We promote a sustainable/responsible approach to adventure travel by connecting people to the natural world and giving back to local communities. **(More on our about us website page)**

## NAMAS ADVENTURE

### ALPINE GRADING

1 or F: Easy These routes involve easy glacier travel and may require some rock scrambling. Except for the glacier sections, you can often climb rope less.

2 or PD: a little difficult. These routes involve some technical climbing sections and glaciers of higher difficulty. There may also be some short sections of steep terrain. They are good introductory climbs for beginners.

3 or AD : Fairly hard. These are physically demanding routes for experienced alpine climbers. They usually have steep and exposed climbing sections or snow/ice slopes over 50°. The descents are long and more complicated, and most of the route requires to be roped.

4 or D: Difficult. These routes involve sustained rock climbing, ice climbing or snow travel. They are considered a significant undertaking and demand a huge commitment.

5 or TD: Very difficult. Highly technical climbs that involve long distances, remote locations, and hard multi-pitch climbing sections. Besides, there are often other hazards like bad weather (extreme cold, strong winds) or poor protection on the routes.

6 or ED: Extremely difficult. These are extreme climbs (the most difficult in the world, actually!) with continuous difficulties. They take several days to be completed.

### FITNESS GRADING

A - Fitness level to be able to enjoy multi day walks of 6-7 hours per day. Should be able to carry 5-8kg of weight during the activity days.

B - Good level of cardio-vascular fitness and strength fitness needed. Can train by running or cycling 30+ min 3/4 times a week combined with some gym session of endurance or lower body straightening. Should be able to carry 10kgs during the activity day.

C - High level of fitness level required both in strengthening and endurance fitness level. Should be able to carry 8 -12 kgs of load. Training or gym sessions are required to attain this level of fitness. Previous experience of multi-day hill walking is essential.

D - Exceptional level of all round fitness will be required to cope with the exceptionally strenuous nature of these expeditions. Experience is required to be able to take on tours of this physical grading.

E - Exceptional level of all round fitness coupled with ability to cope and resist in highest of the altitude. A resistance to extreme weather conditions over extended periods of time. Heavy loads over multiple days may need to be carried. Previous experience is highly crucial in order to prepare your body endure the high level of mental and physical toughness from both altitude and terrains.

### **Expedition Fitness**

When it comes to expedition the more fitter you are and more stronger the better your chances of successfully climbing to the summit and most of all enjoying the expedition. The grading system gives you an indication of the level required for each expedition both technically and physically. It is very important that you train and build your level of fitness depending on your choice of expedition and whilst on expedition if your fitness is deemed to be inadequate our leaders would ask you to remain at camp. Please discuss with our guiding leaders on how you feel and weather you can actually make that push during all climbing/expedition, as we take your and staff safety seriously and would not want any unchecked incidents or miss out on your successful summit bid.

### **Adventure Travel – Accuracy of Itinerary**

It is on our best interest to operate our expeditions as printed in the itinerary but due to unseen circumstances it may be necessary to make some changes as a result of flight schedules, climatic conditions, limitations of infrastructure or other operational factors. As a consequence, the order or location of overnight stops and the duration of the day may vary from those outlined. We would ask for your patience in this case as a lot of these can be out of our hands and we will best decide to plan alternatives. Our assigned leader is responsible for the overall safety of the whole team during the expedition and will encourage the use of safe climbing practises during the expedition. They will ensure that every opportunity is taken to fulfil the objectives described in the trip's outline itinerary, but have the freedom to modify any plans subject to weather, delays or unforeseen circumstances which are deemed to be out of the control of Namas Adventure. The leader will maintain a good team spirit and attempt to keep morale high for the whole group. Wherever possible the leader will keep the Namas Adventure office informed of team progress and any emergency situations that may arise.

### **Insurance**

All our clients are required to have adequate insurance for their trip programs. When conducting research for insurance options, please look into the details of the policies covering the right requirements. Unexpected life events occur. Your travel plans might change due to illness while you are abroad or because of a family emergency even before you leave home. Our recommendation is that you protect your investment and welfare against these unexpected circumstances so you and your loved ones can prepare for your upcoming adventure with more peace of mind.
